## Retro AGA – Set

### **Thermostatic heads**

Retrofit thermostatic insert with pre-setting and  
thermostatic head for 2-pipe systems

# Retro AGA – Set

With retrofit insert for AGA TP the insert in a two-pipe radiator connection system, type AGA Thermopanel 1970-1988, can be exchanged and provided with thermostat.

## Key features

**Liquid-filled thermostat**  
with high pressure power and precision control

**Presetting with “a twist”**  
for easy setting

**Verification of the setting**  
through the front side numbers

**Insert with double O-ring seal**  
for durable and maintenance free operation

## Technical description

With retrofit insert for AGA TP the insert in a two-pipe radiator connection system, type AGA Thermopanel 1970-1988, can be exchanged and provided with thermostat.  
The distributor pipe of the radiator connection system must be marked

with blue tape. For radiator connection systems marked with red tape, use the article 50 543-001.  
The insert is pre-settable by means of an adjustable wrench.  
The insert is equipped with O-rings for sealing against the manifold.

**NOTE:** The Retro AGA insert does not fit AGA Thermopanel with venting nipple.
